::Visualization

```
classDiagram
    class TesseractIgnitionVisualization["tesseract_visualization::TesseractIgnitionVisualization"]
    class Visualization["tesseract_visualization::Visualization"]
    TesseractIgnitionVisualization --|> Visualization
```

The diagram illustrates a class hierarchy. At the bottom is a white box representing the base class 'tesseract_visualization::TesseractIgnitionVisualization'. A blue arrow points upwards from this box to a gray box at the top, which represents the derived class 'tesseract_visualization::Visualization'.
