

tesseract_common::Status
Category

```
graph BT; A[tesseract_urdf::CollisionStatusCategory] --> B[tesseract_common::StatusCategory];
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a gray-shaded box representing the base class, `tesseract_urdf::CollisionStatusCategory`. A blue arrow points vertically upwards from this box to a white box at the top, which represents the derived class, `tesseract_common::StatusCategory`. Both boxes have a black border and contain their respective class names split across two lines.
